Markham Area Holds its Annual Picnic

Text and Photos By GLORIA OLMSTEAD

With over 175 residents participating and on a picture-perfect day on March 14, the residents of Markham Area held its annual picnic at Quiet Waters Park. The day began shortly after 10:30 a.m. with card bingo, where playing cards are used instead of regular bingo cards. Judy Olmstead, Area Chair for the Markham Area was the caller and Celine Marinier interpreted in French for the many

French Canadians who now live in the Markham Area. A picnic lunch consisting of hot dogs, hamburgers, chicken, coleslaw, potato salad, baked beans and dessert was catered by Café Zen. The highlight of the day was a performance by Paul Pizzolla as Elvis and Cliff Lo Sasso as Neil Diamond. They had the audience up dancing. The picnic committee consisted of many, many residents of the

Markham Area who volunteered countless hours in order to make this event such a success. They did an outstanding job organizing this event and selling tickets to the Area residents. This event is so popular that Pavilion 10 at Quiet Waters Park has already been booked for March 12 of 2012. It will be a real challenge to top the entertainment that we had this year. But, we are sure that our Markham residents of Century Village are up to the challenge.

Installation at LHP Women's Club

The Women's Club of Lighthouse Point held their Installation of Officers at the monthly luncheon meeting at Lighthouse Point Yacht Club. Kudos to Sharyl Jennaro for stepping up to serve her third term as president of this great group of gals. A fond farewell was given to outgoing president Pati Ryder, praising her for the many accomplishments of her presidency. As a special "thank you" to her, Elvis dropped by to serenade her in the way only Elvis can do. Pati and all the club members rocked to some hot '50s and '60s tunes, but only Pati got close enough to "step on those blue suede shoes!"
